

I would like to ask you not to replace K-LOVE radio stations with LPFM. K-LOVE is the only Christian radio station in my area, and it is the only music I listen to. It is the only station I can trust to be "safe" for children to listen to. Many people in our local community listen to this station, and we would be left without family oriented programming if the station were taken off the air. In the scary world we live in today, the positive, encouraging programming we receive from this station is a breath of fresh air and a wonderful influence on our community. Please reconsider your thoughts of replacing the station. Thank you.
